Does color matter?

“Color plays a vitally important role in the world in which we live. Color can sway thinking, change actions, and cause reactions. It can irritate or soothe your eyes, raise your blood pressure or suppress your appetite. ...

As a powerful form of communication, color is irreplaceable. Red means "stop" and green means "go." Traffic lights send this universal message. Likewise, the colors used for a product, web site, business card, or logo cause powerful reactions.”

K9 SPA - DOG WASH TUBS!

K9Spa's Recommendations:

Granite Color Tubs - hide wear and tear and create a luxurious and pampered feel for self service dog washes.

Tub Heights - the number one complaint that drives the self service industry is *washing the dog at home hurts the back!* Building bases that have varying heights will address this need and accommodate the greatest number of customers. We recommend a height range from 37"- 45" from the floor to the top of the tub.
